

KaamYaar — UI/UX Brief

Version: 1.0

Goal: Design the fastest, most trustworthy home services experience.

1. Design Vision

KaamYaar should feel:

Modern

Premium

Trustworthy

Fast

Human

Not corporate.

Not playful.

Not crowded.

Reference feeling:

Uber × Airbnb × Modern Service Marketplace

2. User Experience Principles

Rule 1

Reduce thinking.

Users should never ask:

"What do I do next?"

Rule 2

One primary action per screen.

Bad:

10 buttons.

Good:

One clear action.

Rule 3

Trust before beauty.

Show:

Verification

Ratings

Availability

Progress

Rule 4

Speed feels premium.

Target:

Interactions <300ms

Rule 5

Every screen answers:

Where am I?

What can I do?

What happens next?

3. Visual Direction

Style:

Minimal

Premium

Rounded

Layered

Bright

Modern

4. Color System

Primary Gradient:

Purple → Blue

Start:

7C3AED

End:

2563EB

Meaning:

Trust

Technology

Speed

Success:

Green

16A34A

Emergency:

Orange

F97316

Error:

Red

EF4444

Background:

White

FFFFFF

Surface:

F8FAFC

5. Typography

Font:

Inter

Weights:

Regular

Medium

SemiBold

Bold

Sizes:

Display → 32

Heading → 28

Subheading → 22

Body → 16

Caption → 13

Button → 16

6. Spacing System

Base Unit:

8

Examples:

8

16

24

32

48

No random spacing.

7. Component Language

Buttons:

Large

Rounded

High contrast

Primary CTA only.

Cards:

18 radius

Soft shadows

Minimal borders

Inputs:

Filled

Large tap area

Icon support

Bottom Navigation:

Floating

Minimal

3 tabs

8. Home Experience

Goal:

User should book in <30 seconds.

Sections:

Header

Hero

Search

Emergency

Services

Recommendations

Bottom Nav

Hero Message:

Need help at home today?

CTA:

Book Service

9. Booking Experience

Goal:

Reduce friction.

Flow:

Describe

Address

Schedule

Confirm

Show:

Progress indicator

Estimated time

Price expectations

10. Worker Experience

Goal:

Speed + focus

Dashboard:

Today's Earnings

Online Toggle

Job Feed

Minimal distractions

11. Tracking Experience

Feel:

Uber-like

Show:

Map

Worker Card

ETA

Timeline

Primary Action:

Call Worker

12. Empty States

Never blank.

Examples:

No bookings

↓

Show CTA

No workers

↓

Suggest alternatives

13. Loading States

Use:

Skeletons

Shimmer

Progress

Never:

Spinners everywhere

14. Error States

Friendly

Actionable

Examples:

Retry

Refresh

Edit

15. Motion Design

Style:

Fast

Subtle

Functional

Duration:

150–250ms

Examples:

Card elevation

Screen transition

Button feedback

Never decorative.

16. Accessibility

Tap Target:

48+

Contrast:

WCAG friendly

Readable fonts

17. Trust System

Display:

Verified Badge

Rating

Completed Jobs

Fast Response

Availability

18. Premium Details

Gradient headers

Soft shadows

Floating cards

Micro interactions

Smooth transitions

Large whitespace

19. Emotional Goal

User should feel:

I trust this.

This feels modern.

Booking is easy.

Workers should feel:

This helps me earn.

20. Final UI Rule

Remove anything that does not improve:

Trust

Speed

Clarity
